

8-at-a-Time Triangle-Square Units

Try this method to make 8 matching Triangle-Square Units at the same time.

1. Place Fons & Porter's Quarter Inch Seam Marker diagonally across wrong side of lighter square, yellow center line positioned exactly at opposite corners. Mark stitching lines along both sides of the Quarter Inch Seam Marker. Repeat for opposite diagonal (*Photo A*).
NOTE: If you are not using Fons & Porter's Quarter Inch Seam Marker, draw a diagonal line from corner to corner across square. Then draw sewing lines $\frac{1}{4}$ " away from each side of the first line.
2. Place marked square atop darker square, right sides facing; stitch along both sets of marked sewing lines (*Photo B*).
3. Cut stitched squares into 4 equal sections (*Photo C*).
4. Cut between rows of stitching to make 8 Triangle-Square Units (*Photo D*).
5. Press seam allowances toward darker fabric (*Photo E*).

TIP This method works for any size Triangle-Square Unit. Cut squares twice the finished size of Triangle-Squares plus $1\frac{3}{4}$ ".
