## Getting Started

This charming and scrappy quilt is so much fun to make that you'll have a hard time waiting for the next installment! Lynn used mostly fabrics from her stash when she stitched this lovely quilt. She used primarily green scraps for the Log Cabin Blocks and the trees, but if you look closely you'll see navy blue patches, too. And, the large stars and pieced border feature brown, navy, and some of the tan print in addition to the greens. You may wish to choose a palette completely different from Lynn's. How about a pastel cottage and a forest of pink trees? The sky's the limit.

This 3-part pattern provides instructions for the Rising Star and Log Cabin Blocks in the first installment (*McCall's Quilting* January/February 2014); Cottage, Silo, Treetop, and Mini Star Blocks in the second installment (March/April); and Fence, Small Tree, and Flying Geese Blocks in the 3rd part (May/June). You'll be sewing the blocks into sections as you go along, and then the sections will be combined in the final quilt assembly in the May/June issue. Cutting instructions for patches are given with each block and section pattern. Save all fabric left over after each part for future installments.

It's important when piecing a sampler-style quilt to use an accurate ¼" seam allowance so blocks, sections, and borders fit together well. See **It's Sew Accurate!**, on the **Pattern Pull-Out Section**, for tips.
