

Primitive Tulips Wall Hanging

12" Block Quilting Motif

www.mccallsquilting.com

Making Full Quilting Design: Using tracing paper, draw a square 13" x 13". Draw two lines inside the square, one from side to side and the other from top to bottom, making sure they are centered. Using "tracing alignment line" on diagram, align with "quadrant" lines formed when lines were drawn inside of square. Trace the quilting design onto the tracing paper. Repeat for each quadrant. After finishing the drawing, transfer the design to fabric, using method of choice.
